## Examinations:

1. Examinations will consist of multiple choice questions. The assignments, the Midterm Exam, and the Final Exam are intended to be challenging (they are “tests” of your understanding of the material).
2. The midterm examination will be held during the lecture time. **The exam must be completed during the specified time. Extra time will not be given for any reason.**
3. The final examination will last for two hours and will be scheduled by the Registrar. **The exam must be completed during the specified time. Extra time will not be given for any reason.**
4. The use of a non-programmable calculator during tests and examinations is permitted. **The use of graphing calculators, cell phones, and computers is not permitted.**

Tests and final exams are marked on a numerical (percentage) basis, then converted to letter grades. The course grade is then calculated using the weights indicated above. The following letter grade equivalences will apply:

A+	97 – 100	B	79 - 83	C-	60 – 65
A	92 - 96	B-	76 - 78	D+	55 – 59
A-	89 - 91	C+	73 - 75	D	50 – 54
B+	84 - 88	C	77 - 72	F	0 – 49

**Our Relationship:**

I assume that the reason you are attending my class is to acquire an understanding of microeconomic theory and policy. It has been my experience that this task is made much easier and far more enjoyable

for all involved (me included) if we can maintain a relaxed but respectful atmosphere in the classroom. For my part, maintaining such an atmosphere requires that I be respectful of your time, your questions, and your concerns. I will therefore strive to be on time for lectures and office hours, answer your questions as well as I am able, and listen to your concerns. For your part, maintaining a respectful atmosphere requires that you avoid being late for class, that you refrain from leaving before the lecture ends, and that you not talk when either I or one of your classmates is speaking.

**Notes:**

1. Students should be aware that no "make-up" midterms will be given. Any student who finds it necessary to miss the midterm must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting adjusted. This adjustment will result in the final exam counting for up to 85% of the final grade and the assignments counting for 15% of the final grade. Note that deferred final examinations may contain short/long answer questions. Also, deferred final examinations do not have to cover the same material or have the same format as the regular final examination.
2. Examinations will not be given prior to the scheduled date.
3. Students should be aware of the academic regulations outlined in The University of Calgary Calendar.
4. **The use of cell phones for any purpose in class is prohibited. The classroom will be a no cell phone zone. Computers may be used for note-taking purposes only.**
5. Students seeking reappraisal of a piece of graded term work should discuss their work with the instructor *within* 15 days of the work being returned to class. However, the earliest that grades will be discussed will be two days after the return of an assignment or examination.
6. Students will be responsible for all material listed on the course outline, regardless of whether or not the material has been covered in class, unless the instructor notifies the class that the material will not be covered.
7. Please note that the following types of emails will receive no response: emails not addressed to anyone in particular; emails where the recipient's name is not spelled correctly; anonymous emails; emails which do not specify the course and section in which you are registered; and, emails involving questions that are specifically addressed on the course outline.
8. It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Student Accessibility Services (SAS), please contact their office at 220-8237. Students who have not registered with the Student Accessibility Services are not eligible for academic accommodation. **You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.**
