

Department of Economics Course Outline

		Term:	Winter 2014
Course:	Economics 359 Intermediate Economic Theory – Macroeconomics II	Section:	02
Time:	MWF 12:00 – 12:50	Place:	ENA 101 (subject to change)
Instructor:	Peter Tracey		
Office:	SS 552	Telephone:	403-220-2693
Office Hours:	Friday 13:00 – 13:40	E-mail:	tracey@ucalgary.ca

Textbook(s): Abel, A., B. Benanke, D. Croushore, R. Kneebone, *Macroeconomics*, Sixth Canadian Edition, Pearson Publishing, 2012.

Book(s) on Reserve: None.

Blackboard: This course will make use of Blackboard. Students who are registered in the course can logon at <https://blackboard.ucalgary.ca/webapps/login/>. Note that Blackboard features a class email list that I will use to communicate with you. It is your responsibility to make sure that Blackboard uses the email of your choice. The default is your University of Calgary email address.

Course Outline: This is the second part of an intermediate level course in macroeconomics. You will be presented with descriptions of the economy (what economists call “models”) that macroeconomists use to better understand how the economy operates and how governments may, or may not, be able to influence macroeconomic outcomes. Our areas of focus in Economics 359 include developing an understanding of the role expectations play in the determination of business cycles, developing an understanding of long-term economic growth, and an understanding of government deficits and debt.

1. Introduction (Chapter 9)

A lightning fast review of Economics 303

2. The Role of Expectations in the Model of the Business Cycle (Chapters 11 and 12)

The Keynesian approach

The Classical approach

3. The Model of Economic Growth (Chapters 3, 5, and 6)

Productivity and the Labour Market

The neoclassical growth model

4. Unemployment, Inflation, Monetary Policy, and Government Finances (Chapters 13, 14, 15)

The Phillips Curve

Government deficits and debt

Tutorials: When you registered for this course you were enrolled in a tutorial session. The tutorials are intended to provide students enrolled in Economics 359 with the opportunity to ask a teaching assistant (TA) questions about the course. I will from time to time provide problems for you to consider and to discuss with your classmates and your TA during these tutorial sessions. The problems will not be graded but they do offer you the opportunity to test your understanding of the material covered to that point in the course. You will also have the opportunity to discuss with the TA the material we have discussed in class and which you may not yet fully grasp.

Grade Determination and Final Examination Details:

First Assignment	(10%) --	Due Date: Wednesday, February 12
Midterm Test	(25%) --	Date: Wednesday, February 26
Second Assignment	(15%) --	Due Date: Wednesday, March 19
Final Exam ☹	(50%) --	Date: set by the Registrar's Office.

The two Assignments, the Midterm Test, and the Final Exam are marked on a numerical (percentage) basis and then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will generally apply:

A+	96 - 100	B	77 - 81	C-	61 - 65
A	91 - 95	B-	74 - 76	D+	56 - 60
A-	87 - 90	C+	70 - 73	D	50 - 55
B+	82 - 85	C	65 - 69	F	0 - 49.9

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

Assignments are due at the *beginning* of the lecture on the due date. Solutions to the assignments will be posted on the Blackboard site at that time. This means that late assignments cannot and will not be accepted. Do not slide assignments under my office door – they will not be marked. Do not email assignments to me – they will not be marked.

The Midterm Test will be held in the classroom during regular lecture hours. The Final Exam will be two (2) hours in length and will be scheduled by the Registrar's Office. There will be no multiple choice questions on the Midterm Test and the Final Exam. The use of a simple calculator during the test and the final exam will be allowed. Graphing calculators, cell phones, and computers are not permitted.

Assignments, the test, and the final exam are intended to be challenging (they are "*tests*" of your understanding of the material). You are encouraged to consult with your classmates when working on the assignments. The solutions you submit must, however, represent your own work. Taking credit for someone else's work is something for which I show zero tolerance.

Notes:

1. Students should be aware that no "make-up" midterms will be given. Any student who finds it necessary to miss the midterm must notify the instructor in advance and produce a valid medical certificate or other required documentation in order to have the weighting adjusted. This adjustment will result in the final exam counting for 70% of the final grade and the assignments counting for 30% of the final grade.
2. Examinations will not be given prior to the scheduled date.
3. **Answers to the midterm test, the assignment and the final exam questions must make use of equations and diagrams wherever possible. Numerical questions require numerical answers.**
4. **Students will not be given extra time to complete tests and exams.**
5. Students should be aware of the academic regulations outlined in The University of Calgary Calendar.
6. **The use of cell phones for any purpose in class is prohibited. Computers may only be used for note-taking purposes.**
7. Students seeking reappraisal of a piece of graded term work should discuss their work with the instructor within 15 days of work being returned to class; however, the earliest that grades will be discussed will be two days after the return of an assignment or examination.
8. Students will be responsible for all material listed on the course outline, regardless of whether or not the material has been covered in class, unless the instructor notifies the class that the material will not be covered.
9. Please note that the following types of emails will receive no response: emails not addressed to anyone in particular; emails where the recipient's name is not spelled correctly; anonymous emails; emails which do not specify the course and section in which you are registered; and, emails involving questions that are specifically addressed on the course outline.

10. It is the student's responsibility to request academic accommodations. If you are a student with a documented disability who may require academic accommodation and have not registered with the Disability Resource Centre, please contact their office at 403-220-8237. Students who have not registered with the Disability Resource Centre are not eligible for formal academic accommodation. **You are also required to discuss your needs with your instructor no later than fourteen (14) days after the start of this course.**
