Course Outline:

This course examines the nature, causes and consequences of international trade. (Some topics may be added or deleted depending on time constraints.)

1. Introduction
2. The Gains from Trade

- | | | |
|----|--|--------|
| 3. | Why Nations Trade | Chapte |
| 4. | Protectionism | Chapte |
| 5. | Why Governments Restrict Trade | Chapte |
| 6. | Discriminatory Trade Policies: Free Trade Areas & Antidumping Protection | Chapte |
| 7. | The International Migration of People | Chapte |
| 8. | The Future Path of Globalization | Chapte |

A follow-up course, Economics 425 (International Trade II), provides students with a more detailed explanation of trade flows and goes on to consider issues such as: strategic trade policy in the presence of imperfect competition; trade, growth and technological change; trade-related aspects of intellectual property; and trade, trade policy and the environment. While Economics 321 is not a prerequisite to Economics 425, it does provide very helpful background. Students must complete ECON 357 prior to or concurrently with ECON 425 OR complete ECON 309 prior to ECON 425.

Midterm Exam 30% October 15, 2004

Grade Determination and Final Examination Details:
Assignment 20% November 5, 2004

Final Exam 50% 2 hour exam scheduled by Registrar

Students will be evaluated in accordance with the marking scheme given below.

Tests and final exams are marked on a numerical (percentage) basis, and then converted to letter grades. The course grade is then calculated using the weights indicated above. As a guide to determining standing, these letter grade equivalences will apply:

A+	97 ? 100	B	77 - 81	C-	61 - 65
A	90 - 96	B-	74 - 76	D+	57 - 60
A-	87 - 89	C+	71 - 73	D	50 - 56
B+	82 - 86	C	66 ? 70	F	0 - 49

If, for some reason, the distribution of grades determined using the aforementioned conversion chart appears to be abnormal the instructor reserves the right to change the grade conversion chart if the instructor, *at the instructor's discretion*, feels it is necessary to more fairly represent student achievement.

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

Calculators WILL NOT be allowed during the writing of tests and the final examination.

There will be a Registrar scheduled final examination, lasting 2 hours. It will be held in a classroom.

Although tests and exams WILL NOT involve multiple choice questions, they will require that you solve problems.
