Course Description:

This course is a general introductory course in health economics. Students will learn how to apply economic analysis tools to understanding the economics of health and health care markets. This highly interactive course is designed to help student to establish a conceptual framework to evaluate health care system and policy, to be able to understand and participate in evidence-based decision making in health care.

All students with an interest in health economics, health services research, and health policy are encouraged to enroll; background in health care field or advanced economics is not required.

Course Objectives/Learning Outcomes:

Upon completion of this course, you will be able to:

1. Understand and apply basic economic concepts and theories in health care: such as opportunity cost, economic efficiency, asymmetric information, moral hazard, etc.
2. Understand the role of government in health care industry and able to apply it: when and in which direction the government should intervene the markets, as well as how to evaluate the impact of relevant government's policies on markets.
3. Understand consumer and provider decision making and behavior in the health care market.
4. Understand how to analyze the economics incentives of different payment mechanisms.
5. Apply economic analysis to real world issues related with health and health care you encounter in the future.

Prerequisites/corequisites:

Please note that D2L features a class e-mail list that may be used to distribute course-related information. These e-mails go to your University of Calgary e-mail addresses only.

Grade Determination and Final Examination Details:

There will be two tests, as well as a term paper project. There is no final examination.

Grading weights will be as follows.

CLASS PARTICIPATION	20%
TEST 1 (tentatively: February 16 th 2018)	25%
TEST 2 (tentatively: March 28 th 2018)	25%
TERM PROJECT	30%
	100%

Grade for class participation is based on attendance, interactions/contributions in class discussions, and demonstrated familiarity with course readings. Details on term project requirements will be discussed in Day 1 of the class; detailed instructions will be posted on the course D2L website.

Grading Scale

A+	95 – 100	B	73 – 76	C-	60 – 62
A	85 – 94	B-	70 – 72	D+	56 – 59
A-	80 – 84	C+	67 – 69	D	50 – 55
B+	77 – 79	C	63 – 66	F	0 – 49

Students must receive a passing grade on CLASS PARTICIPATION and TERM PROJECT to pass the course as a whole.

As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work.

Any student work which remains undistributed after the last day of classes will be available to students through the instructor's office during his office hours.

Tests and exams will involve multiple choice questions. Non-programmable calculators WILL NOT be allowed during the writing of tests or final examinations.

The exact date for the in-class midterm will be announced at least one week in advance.

THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES/TESTS/EXAMS under any circumstances, nor may the quizzes/tests/exams be written early. Students unable to write the quizzes/tests/exams because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the remaining grading determinants (i.e. course participation, test taken, and term project); otherwise a grade of zero will be assigned.
