(Fall 2019)

Course Description:

This course looks at project evaluation from both a private (financial) and economic (public) perspective. In this course, we investigate the similarities and differences in evaluating private and public projects. For private projects, net present value and internal rates of return are derived from revenues, direct costs, depreciation and taxes. For public projects, we investigate the welfare gains (or losses) when a public project is proposed.

Course Outcomes/Learning Objectives:

This course will focus on two aspects of cost benefit analysis. The first part of the course will look at the framework for constructing a financial cost benefit analysis. A review of basic finance and discounting will be examined. In particular, this part of the course focuses on how a firm selects a project based on mutually exclusive and independent alternatives. The second (and most comprehensive part of the course) examines the theoretical basis for economic (social) cost benefit analysis and the appropriate appraisal techniques. This part of the course examines the benefit/costs from a social welfare perspective and evaluates different proposals by using a social discount rate. The students will learn the necessary tools and knowledge to evaluate projects based on different methodologies, such as a person's willingness to pay when there is no market signal to determine benefits.

Textbook(s):

Required: There are no textbooks for this course. I will be providing the notes and any supplementary notes. Current topics and relevant research papers will be distributed throughout the term.

Book(s) on Reserve:

Shaffer, Martin, Multiple Account Benefit-Cost Analysis: A Practical Guide for the Systematic Evaluation of Project and Policy Alternatives, University of Toronto Press, Toronto, 2010.

Desire2Learn:

This course will make use of the Desire2Learn (D2L) platform. Students who are registered in the course can log on at <http://d2l.ucalgary.ca> using or through their student centre. Please note that D2L features a class e-mail list that may be used to distribute course-related information. These e-mails go to your University of Calgary e-mail addresses only.

Grade Determination and Final Examination Details:

Two Assignments (15% each) (due dates will be announced during the term)	30%
Midterm Exam (Wed. Oct. 30, 2019)	30%
Final Exam	<u>40%</u>
	100%

The official grading system will be used. See <http://www.ucalgary.ca/pubs/calendar/current/f-1-1.html>.

A passing grade on any particular component on the course is not required for a student to pass the course as a whole.

If a student's letter grade on the final exam exceeds their midterm(s) letter grade, the weight of the midterm (s) is (are) transferred to the final exam. The student must have written the midterm(s) or provided supporting documentation for the absence(s) such as a medical note or statutory declaration.

As per the Writing Across the Curriculum Statement in the Calendar, writing and grading thereof will be a factor in the evaluation of student work. See <https://www.ucalgary.ca/pubs/calendar/current/e-2.html>.

Any student work which remains undistributed after the last day of classes will be available to the students though the instructor's office during the instructor's office hours.

The final exam will be comprehensive, scheduled by the Registrar's office, held in a classroom, and last 2 hours. If a student cannot write their final exam on the date assigned by the Registrar's Office, they need to apply for a deferred exam www.ucalgary.ca/registrar/exams/deferred_final. Under no circumstances will this be accommodated by the Department.

(a) Assignments:

There will be two assignments, each of which is to be submitted at the beginning of class on the due date. In exceptional cases, they may be handed in before that date to the instructor personally. Answers to assignments will be discussed in class shortly after each assignment falls due. For this reason, late assignments will be given a score of zero, although you may still wish to have the work corrected and returned without a score being recorded. I will hand out the assignment approximately 7 to 10 days before the due date.

Students are encouraged to work on their assignments with other classmates. But each must write up his or her own answers in his/her own words. Copying or misrepresenting someone else's work as your own is a serious offence that will not be tolerated. Your attention is to be directed to the 'Statement of Intellectual Honesty' in the 2019-20 Calendar.

(b) Examinations:

1. Examinations will consist of problem solving questions. Tests and exams WILL NOT involve multiple choice questions.
2. The midterm examination will be held during the lecture time. **The exam must be completed during the specified time. Extra time will not be given for any reason.**
3. The use of programmable calculator (e.g. graphing calculators) is NOT permitted during the midterm test and the final examination. **The use of tablets, computers, cell phones, blackberry's and other electronic devices (unless approved by your instructor) is not permitted.**
4. Students are reminded that simply being able to access their cellphone during an exam is academic misconduct.

Absence from a Quiz/Test/Exam

THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES/TESTS/EXAMS under any circumstances, nor may the quizzes/tests/exams be written early. Students unable to write the quizzes/tests/exams because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the final examination; otherwise a grade of zero will be assigned.
