Course Description:
This is a first year graduate course covers the theoretical underpinnings of identification, estimation and inference in modern microeconometrics. The course is divided into two parts. The first part provides a review of probability theory and mathematical statistics. Topics covered will include: expectation and conditional expectations; families of distributions and transformations; statistical theory, and the fundamental results of asymptotic theory that underlie identification and inference in modern econometrics. The second part of the course will be devoted to estimation and testing procedures. This section will mainly focus on the Ordinary Least Squares Estimator (OLS), The Maximum Likelihood Estimator (MLE) and the Generalized Method of Moments (GMM). We will discuss the assumptions that underlie each and their resulting finite sample and asymptotic properties. If time permits, the course will end with a brief introduction to nonparametric regression and density estimation.

Course Objectives/Learning Outcomes:
By the end of the course, students will have a strong understanding of the theory that underlies the most commonly applied estimation techniques in econometrics. Students will be able to not only use “pen and paper” to derive properties of estimators, but will be able to use computational methods to evaluate the estimators.

Prerequisites/corequisites:
Econ 615

Required Textbook(s):
Cameron and Trivedi: Microeconometrics

Recommended Textbook(s):
Wooldridge: Econometrics of Cross Section and Panel Data.

Desire2Learn:
This course will make use of the Desire2Learn (D2L) platform. Students who are registered in the course can log on at http://d2l.ucalgary.ca through their student centre. Please note that D2L features a class e-mail list that may be used to distribute course-related information. These e-mails go to your University of Calgary e-mail addresses only.
Grade Determination/Assessment:

Part of the ASSIGNMENTS component will require students to give inclass presentations of their solutions to some homework problems.

Grade Determination and Final Examination Details:
Department of Economics Criteria for Letter Grades. Economics professors use the following criteria when assigning letter grades:

There will be weekly tutorials (held by the TA) where students will have the opportunity to review questions from assignments/exams and to go over or ask about other practice questions. Regular attendance is strongly encouraged.

A passing grade on any particular component of the course is not required for a student to pass the course as a whole.

There will be a department scheduled final examination, held in a classroom, lasting 2 hours. Non-programmable calculators WILL be allowed during the writing of tests or final examinations.

Tests and exams WILL NOT involve multiple choice questions.
Absence from a Test/Exam:
THERE WILL BE NO MAKEUP OR DEFERRED QUIZZES under any circumstances, nor may the quizzes be written early. Students unable to write the quizzes because of documented illness, family emergency, religious observance, or university-sanctioned event will have the weight shifted to the final examination; otherwise a grade of zero will be assigned. If a student cannot write their final exam on the date assigned by the Department, they need to arrange for a deferred exam with the department.

Reappraisal of Grades and Intellectual Honesty:
For reappraisal of graded term work, see Calendar 0.1

Academic Accommodations:
The student accommodation policy can be found at: ucalgary.ca/access/accommodations/policy.
Students needing an accommodation because of a disability or medical condition should communicate this need to Student Accessibility Services in accordance with the Procedure for Accommodations for Students with Disabilities ucalgary.ca/policies/files/policies/student-accommodation-policy.

Students needing an Accommodation based on a Protected Ground other than disability, should communicate this need, preferably in writing, to the course instructor.

Evacuation Assembly Point:
In case of an emergency evacuation during class, students must gather at the designated assembly point nearest to the classroom. The assembly point for this classroom is food court in the Professional Faculties building.
Safewalk:
The Safewalk program provides volunteers to walk students safely to their destination anywhere on campus. This service is free and available 24 hrs/day, 365 days a year. Call 403-220-5333.

Freedom of Information and Protection of Privacy (FOIP) Act:
Personal information is collected in accordance with FOIP. For more information, see http://www.ucalgary.ca/legalservices/foip/foip-hia.

Internet and Electronic Communication Device information:
The use of cell phones for any purpose in class is prohibited. Computers and tablets may be used for note-taking only.
